Life Guards.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them. Not only the Queen's household, but yours, ours, everybody's should have its life guards. The need of them is especially great when the greatest foes of life, diseases, find allies in the very elements, as colds, influenza, catarrh, the grip and pneumonia do in the stormy month of March. The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the conditions in which these diseases make their most successful attack, gives vigor and tone to all the vital organs and functions, and imparts a genial warmth to the blood. Remember the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.

TALL CORN

doesn't come by accident. A fertile soil and careful cultivation are necessary to produce the towering stems and heavy ears.

Yet the farmer who understands that he can't have a healthy corn crop without feeding and weeding, seems to think that he can have a healthy body without either care or culture. But the body is built up just as the corn is, by the assimilation of the several chemical elements on which vitality depends. And what weeds are the corn diseases of the stomach and digestive systems are to the body; they divert the necessary food supply from the proper channels, and the body becomes lean, sickly and ill-nourished.

The proper digestion and assimilation of food is a primary essential of health. By healing diseases of the stomach and organs of digestion and nutrition, Dr. Pierce's Golden Medical Discovery increases the digestive and assimilative powers, stimulates the action of the blood making glands, and sends to every organ of the body the rich red corpuscles, blood on which physical vigor and vitality depend.

"I took two bottles of Doctor Pierce's Golden Medical Discovery for stomach trouble," writes Clarence Carnes, Esq., of Taylorsville, Louisiana, La., "it did me so much good that I didn't take any more. I can eat most anything now. I am so well pleased with it I hardly know how to thank you for your kind information. I tried a whole lot of things before I got to you. There was a gentleman told me about your medicine, how it had cured his wife. I thought I would try a bottle of it. Am now glad that I did, for I don't know what I would have done if it had not been for Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets regulate the bowels and cure constipation.

YOU have to eat and drink. Make it a pleasure. Many persons drink tea merely from habit. They miss all the pleasure because they haven't cultivated a taste for fine tea. To do this you need to drink tea as the Orientals themselves drink it. It is an entirely different beverage from ordinary tea. Just to try this, buy a half pound of one of Chase & Sanborn's "Original Package" Teas sealed in China or India and never opened till it reaches your kitchen. They are teas that linger in your memory.

but it is quite a study for the general public to make "heads or tails" of such a financial statement, but I can say honestly and candidly, that the showing made by the above Company in 1900, was the best and most satisfactory, of any year in their history, which means 56 years of prosperity and financial progress.

Every item was the largest in 1900 of any year, as above, and they have made a net gain of over a quarter of a million dollars, in their surplus.

The new policies of the Company contain many important and new liberal features, and are not excelled by any company in the country.
